

Alfa / Beta / Gamma Shielding

Vial Shield for Beta and Acrylic Insert Shield for Gamma

The vial shield is designed to protect the user against radiation when working with syringes containing beta isotopes. The 22.3 mm thick lead glass provides maximum safety while allowing 360-degree visibility of contents.

The insert of acrylic glass protects the user against gamma radiation when working with vials and syringes.

Specification

- Glass thickness: 22.3 mm
- Acrylic insert thickness:
Small: 10.5 mm
Large: 4.8 mm
- Vial glass weight: 2900 g
- Acrylic insert weight:
Small: 75 g Large: 45 g

Item number: 101.000.301.000

Item number (insert):

Small: 109.000.401.000

Large: 109.000.402.000

Acrylic Syringe Shield

Developed to combine user-friendly functionality with high safety.

Designed for working with syringes and injection of beta isotopes.

Made of 10 mm acrylic plastic. The transparent material makes it possible to see the syringe inside.

Specification

- 100% acrylic plastic
- Fits many different types of syringes
- Comes with spring lock

Item number: Defined according to item number key depending on type.

Vial Shield for 100 ml

For safe storage and handling of 100 ml vials in connection with filling syringes.

The 15 mm thick lead glass allows 360-degree visibility of contents.

Tungsten is incorporated in the top and bottom to enhance safety and cut down on weight.

The top is close-fitting thanks to the use of magnets, and is opened with a light twist.

Specification

- Glass thickness: 15 mm
- Internal dimensions:
Diameter 51 mm
Height 115 mm
- Weight: 3000 g
- Comes with a loop for hanging up

Item number: 101.000.501.000

About HOY Scandinavian

HOY Scandinavian is an international business that supplies products to nuclear medicine and oncology departments at hospitals and laboratories all over the world.
